

## Dimensions

1Segment

24V

# 20MM 24V 120° LED STREIFEN LINEAR

SKU: JN32220

## ZUSÄTZLICHE INFORMATIONEN

|                          |                                   |
|--------------------------|-----------------------------------|
| Typ des LED Streifens    | <a href="#">Linear</a>            |
| LED Typ                  | SMD5730                           |
| Eingangsspannung         | 24V                               |
| Abstrahlwinkel           | <a href="#">120°</a>              |
| LED / Meter              | 32 LED                            |
| Farbtemperatur           | 2700K/ 3000K/ 4000K/ 5000K/ 6000K |
| Leistung (W/M)           | 14.4                              |
| Pitch (mm)/ Trennbarkeit | <a href="#">140</a>               |
| Streifen Breite (mm)     | 20                                |
| Lumen/M                  | <a href="#">2160</a>              |
| Lumen/W                  | 150                               |
| CRI                      | 80                                |
| Control                  | Constant Current design           |
| IP Schutzart             | IP20                              |
| mA/LED                   | 150mA                             |
| LED Reihe                | Single row                        |
| SKU                      | JN32220                           |
